

got messy

You got messy. We got you.

A brand for real people with real chaos. No tech jargon. No learning curve. Just clarity, fast — for social media managers, solopreneurs, executive assistants, and anyone who knows what great output looks like but can't ask for it yet.

Never use Inter, Roboto, Arial, or system-ui — these undermine the warm, human brand personality.

THREE LOGO CONCEPTS · ONE BRAND SYSTEM

got messy .

CONCEPT A**Serif Weight Contrast**

Light italic "got" + heavy "messy". The clay period = the moment of clarity. Use for: website header, email signature, Google Docs letterhead.

WEBSITE · EMAIL · DOCS

got
messy .

CONCEPT B**Stack + Underline**

"got" whispers above, "messy." shouts below. Clay bar grounds the chaos. Use for: dark slide decks, social cover images, app splash screen.

SLIDES · SOCIAL · SPLASH

got
messy .

CONCEPT C RECOMMENDED FOR APP ICON**Icon + Wordmark**

Tilted pencil-in-a-box icon + wordmark. Shares typeface with A & B — reads as one family. Use for: app icon, favicon, social avatar, pitch decks.

TAGLINE OPTIONS

RECOMMENDED

You got messy.
We got you.

Mirrors domain. Instant empathy.
Sounds like a friend.

Clean words from
messy thoughts.

Names the transformation. Strong for
ads and social.

Just paste it.
We'll figure it out.

References the Dump Zone. Gives
permission to be imperfect.

BRAND VOICE - 4 TRAITS

Warm

Never condescending.
Meets users where they are,
chaos and all.

Direct

Says what it means. No
jargon. No "leveraging
synergies."

Lightly Playful

A raised eyebrow, not a
stand-up set. Wit without
trying too hard.

Honest

Admits when something
will take effort. Never
overpromises magic.

DO SAY / DON'T SAY

ONBOARDING

Welcome to your AI-powered prompt optimization platform.

Got something messy? Paste it. We'll make it work.

EMPTY STATE

No prompts found. Create your first prompt to get started.

Nothing here yet. Drop something messy and we'll sort it.

ERROR

Error: Unable to process request. Please try again.

Hmm, that one got too messy even for us. Try a shorter paste?

TOOL NAMES — HUMAN & VERB-DRIVEN

The Dump Zone

The Drop

Drop. "Just drop it in" is what a friend says.

The Mimic

Mirror It

Mimic form = action. Something you do, not a tool you use.

The Sorter

Sort It Out

British idiom for "fix it". Casual, implies resolution.

The Studio

Make It

Imperative and confident. No intimidating studio bag.

Goal Generator

Just Tell Me

Sounds like talking to a friend.

The Vault

My Good Stuff

Don't identify with "my good stuff", not a "vault".

DOMAIN STRATEGY · THREE DOMAINS, ONE ECOSYSTEM

gotmessy.com**LEAD BRAND**

The primary brand and home page. Everything lives here. Speaks directly to the non-technical user's emotional state before they've done anything. When someone asks "what do you use for AI stuff?" they say gotmessy.com and it lands.

Primary URL

- All marketing
- Consumer acquisition

gotmessy.com**getprompted.io****PRO / B2B TIER**

Redirect to a professional landing page or power-user tier. "Prompted" is cleaner for workplace audiences — freelancers, VAs, solopreneurs who want to sound polished about their tools. Use for the B2B tier and email campaigns.

Pro tier URL

- Email campaigns
- Workplace audience

getprompted.io**cloudcomb.io****FUTURE ENTERPRISE**

Hold for the enterprise or team edition. Cloud Comb has a systematic, orderly feel — the opposite of Got Messy. That contrast works beautifully as a brand name for a white-label or team workspace where the selling point is organisation at scale.

Enterprise v3

- Team workspaces
- Sit on it for now
